A LETTER FROM RON WHITE

Dear Event Coordinator,

Luis Angel is one of the rising stars in teaching and demonstrating memory. Over the last few years I have watched him develop into a trusted resource for those looking to learn memory while at the same time honing his own memory skills to competition level. I've been teaching memory training for 23 years and I have not seen anyone else come along in the last 23 years that has the **drive, ambition, knowledge of memory and talent in teaching that Luis does.**

As a 2 Time USA Memory Champion there is no doubt I will enjoy watching Luis compete in memory tournaments for years to come and take home medals. More importantly, I know **Luis will be teaching many people to use and develop their memory to a level they never imagined before.** It was an honor to partner with Luis on a recent memory training video and I enjoyed his friendly and effective teaching style. If you are looking for a memory speaker or trainer, then **make sure to book Luis Angel** so that your students could begin to have a **better memory now.**

- Ron White | 2x USA Memory Champion

"Meeting Luis and joining the AE Mind Team has been a great experience. Not only did we get the chance to compete in the memory competition in New York, but we learned skills which helped us **memorize material for our academic courses.** We also got the opportunity to **learn strategies that would benefit us with our future careers.**

By being on the team we learned lots of skills, it opened our doors to many new opportunities, we got to meet many inspiring people, and it was overall **one of the best decisions I have made."**

- Kassandra Ceja | Student at UC Irvine
